About us

Credit Union Trust was created to provide trust and investment solutions to credit union members and the public. Solely owned by Michigan credit unions, Credit Union Trust is a limited purpose bank that offers products and services designed to create, protect, maximize, and preserve wealth for individuals and their families.

Establishing a trust may be the most important financial step you could ever take.

In the past, however, it could be difficult to find a knowledgeable source that was accessible, reasonable, and personal.

That's why Credit Union Trust was formed. We promise to build on the credit union legacy of service and integrity as we create an enduring future for those we serve.

EVERYONE NEEDS A WILL

If an individual doesn't have estate planning documents in place, the state of Michigan will direct who controls the funds and who receives the assets.

MANY WOULD BENEFIT FROM A TRUST

If you are interested in increased protection and the ability to control the distribution of your assets, creating a trust is one of the most important steps you could take.

You may need trust services if you are:

- Concerned about burdening your family with managing your estate upon incapacity or death
- Working to grow, maximize, or protect valuable assets
- Interested in taking care of a spouse or children
- Interested in keeping details of your estate private
- Concerned about complexity due to a second marriage/blended family
- Worried about vulnerable children or parents
- Interested in avoiding probate
- Facing special family needs
- Interested in supporting charities
- Owner of a closely held business
- Holding unusual assets

HAVING A TRUST CAN PROVIDE:

01

Control.

You decide how your assets will be directed—and who will manage them.

02

Privacy.

While wills are required to be filed publicly, trusts are not.

03

Protection from predators.

It's surprising, and distressing, how many risks exist—even within families and from caregivers.

04

Protection from creditors and taxing authorities.

Legal claims are limited when money is held in a trust. Also, appropriate planning can reduce taxes.

You will sleep better at night, knowing you have a solid plan in place to carry out your wishes.
